I came up with the idea for 33 Beers at GABF in 2009. So many beers — so hard to remember them all the next day! I knew there had to be a better way. So I came up with this handy, pocket-sized tasting notebook. **Stop by booth no. 20** and buy a book for your GABF experience, and a second book for free when you present this card. My treat. 33 Cheers!
